Covers 670 Species In Australia, Indonesia, Malaysia, Vietnam, And The Philippines

The Australasian region is home to a vast and diverse array of bird species, from the tiny fairy wrens of Australia to the majestic eagles of the Philippines. This comprehensive guide covers 670 species found in Australia, Indonesia, Malaysia, Vietnam, and the Philippines, providing detailed descriptions, stunning photographs, and distribution maps for each species.

The book is organized by family, with each family providing information on the general characteristics, behavior, and habitat of the birds in that family. The species accounts include detailed descriptions of the bird's

appearance, voice, behavior, and distribution. Each account is also accompanied by a stunning photograph of the bird, as well as a distribution map showing where the bird can be found.

This guide is an essential resource for anyone interested in the birds of the Australasian region. Whether you're a seasoned birder or a casual observer, you'll find everything you need to know about the birds of this fascinating region.
