Neoliberalism is a political and economic ideology that emphasizes free markets, deregulation, and privatization. It is based on the belief that the private sector is more efficient and innovative than the public sector, and that government intervention in the economy should be minimized.

Dr. Doe argues that neoliberalism has been a disaster for our societies. She shows how it has led to:

- A widening wealth gap

- Increased inequality

- A decline in the quality of life for the majority of people

- A rise in poverty and homelessness

- A decline in public services

- An increase in environmental degradation

Dr. Doe also shows how neoliberalism has led to a decline in democracy and a rise in authoritarianism. She argues that the policies of neoliberalism have created a system that is rigged in favor of the wealthy and powerful, and that it is undermining our democratic institutions.

The Scourge of Neoliberalism is a powerful indictment of the policies that have dominated our societies for the past four decades. It is a must-read for anyone who wants to understand the challenges facing our world today, and for anyone who wants to fight for a more just and equitable future.
